

SSCOE 2023

The 6th International Conference on Substantial Scientific Collaboration of

Ocean and Earth Sciences between Myanmar and China
2023/11/22-23 @ Myeik University, Myanmar

CALL FOR PAPERS

In-person * Online

Open for submission
2023/08/5—2023/10/15

SUBMISSION

- ✓ The 6th Substantial Scientific Collaboration of Ocean and Earth Sciences (SSCOE) is calling for submission the latest research and results of topics related Ocean and Earth Science fields and to promote understanding of the origin, structure and evolution of these fields and related issues in Asia in the following areas:
- ✓ **Geological processes:** Tectonic and magmatic evolution, Erosion in coastal and estuarine region, Sedimentation and hydrology, Green energy for sustainable development.
- ✓ **Physical processes:** Climate change; Damage assessment and adaptation options, Physical processes of the ocean, Ocean monitoring system, Tsunami early warning, Renewable energy.
- ✓ **Biological processes:** Coastal and marine resources, Resources conservation, Environmental and resource management, Blue economy, Fisheries.
- ✓ **Chemical processes:** Industrial pollution; Ecosystem and ocean health impact.

IMPORTANT DATE

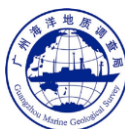

Organizer

Myeik University

Organizing Partners

Guangzhou Marine Geological Survey
Southern University of Science and
Technology

Contact Persons: Prof. Soe Moe Lwin, smlwin.sm@gmail.com, (+959) 5047370

Prof. Cherry Aung, missaungmarine@gmail.com, (+959) 781544451

Thet Paing Soe, thetpaingsoetps9@gmail.com, (+959) 974967760

More Information sscoe.contact2023@gmail.com

SSCOE 2023 will be held in Myeik University, Myanmar during 22-23 Nov 2023. The aim and objective of SSCOE 2023 are to present the latest research and results of scientists related to topics in Ocean and Earth Science. This conference provides opportunities for the delegates to promote cooperations between universities and educational institutions, to conduct joint research in cultivating innovative talents in the ocean and earth sciences, as well as to find global partners for future collaborations. We hope that the outcomes of the conference will lead to significant contributions to the core technology and knowledge exchanges in frontier scientific fields.

Important Dates

Abstract Submission : 5th Aug 2023 - 25th Oct 2023

Conference Dates: 22nd -23rd Nov 2023

Registration Fees

	Category	Conference Fee
		Regular
International	Regular	USD 150
	Student	USD 100
Local	Regular	25,000 MMK
	Student	15,000 MMK

Registration fees are waived for partner associations and Universities

Mode of Presentation

1. On-site Presentation
2. Online/Virtual Presentation
3. Poster

Field Trips

24 to 25, November, 2023

City Tour

King Island, Smart Island, Dome Island, Myeik District

Publication

Selected papers will be recommended for the publication in Proceedings on the 6th International Conference on Substantial Scientific Collaboration of Ocean and Earth Sciences between Myanmar and China.
